Interpreter Services Needed: Y / N **Language Spoken:** _____

Reason for Referral:

- ☐ **Chronic Disease Management:** Assessing current medications to identify personalized pharmacotherapeutic alternatives that offer benefits for the relevant condition(s), and recommending adjustments to the physician or prescriber, along with ongoing monitoring of relevant labs and home monitoring values.
- ☐ **Medication Adherence:** Clarify medication names, indications, and side effects to ensure understanding, address adherence challenges, and collaborate with patients on compliance strategies. Also, assist with medication access to maintain therapy continuity.
- ☐ **Transitions of Care:** Conduct post-discharge outreach to prevent readmission by providing comprehensive medication review and assistance with medication access to ensure continuity of care.
- ☐ **Drug Utilization Review:** Evaluating current medications to identify cost-effective alternative treatments for relevant condition(s) and recommending changes to the physician/prescriber.
